PROFESSIONAL EXPERIENCE

Study web programming
UDEMY, COURSERA, EDABIT   2020.01-
Started to learn web programming using HTML, CSS, Javascript, and Node.js alongside work. Later, at the beginning of 2021, I quit my job, to be able to focus on learning full time.

Business Line Manager
LOXON SOLUTIONS ZRT   2016.01-2021.02
Responsible for the effective delivery of the projects, the overall professional performance of the analysts. Take part in projects as a professional supervisor, help the lead business analysts, product owners, and the analyst team. Act as an escalation point in the projects. Responsible for the financial, and operational resource planning of the line. **Achievements**: During this period all closed projects in the line were successfully finished.

Project Manager
LOXON SOLUTIONS ZRT   2014.01-2015.12
Coordination and management of preparation, planning, executing, testing, and launching strategic projects. Coordination of the whole consultant-, analyst-, architect- and developer-team to implement projects successfully. **Achievements**: Successfully managed the introduction of the collection system in MKB Bank.

Senior Business Consultant
LOXON SOLUTIONS ZRT   2013.01-2013.12
Responsible for client communication throughout the projects, conducting workshops, supporting the consultants in the team. Also took part in presales activities and held demo sessions. **Achievements:** Successfully managed the introduction of the collection system in MKB Union Bank (BG) as a lead consultant

Business Consultant
LOXON SOLUTIONS ZRT.   2012.08-2012.12
Perform structured requirement and system analysis and effort estimations. Elaborate detailed mappings for interfaces. **Achievements:** Took part in the process assessment and created the processes for the introduction of the collection system in HCI Vietnam. Successfully managed the go-live procedure on-site.

IT Project Manager
BUDAPEST BANK (GE MONEY)   2011.01-2012.
Coordinate the projects from IT point of view. Formulating the project plan to meet the objectives of the project in terms of budget and timeline. Coordinating activities across multiple departments. **Achievements:** Successfully managed the 'Server-side office 2010 upgrade' project.

System Analyst
BUDAPEST BANK (GE MONEY)   2008.07-2010.12
Analyzing the needs of the business, coming up with solutions to business problems, specification of the changes, driving the implementation, testing, and manage the go-live procedure.
